Plan

Come and have a time of fun and conversation, make new friends and explore questions relevant to life in Switzerland from a Christian perspective! We offer cultural events, movie and discussion groups, bible study groups, fun activities and more...

who we are

International Students and Academics (ISA) is a team of Christians who would like to offer students from around the world an opportunity to feel at home, learn about life in Switzerland and check out the Christian faith.

welcome!

We are part of the interdenominational Christian movement VBG, which is an interdenominational Christian movement in the German speaking part of Switzerland. Their goal is the integration of faith and reason. It reaches out to people in high school and university as well as to people in the work, place, society and church. It was founded in 1949 as «Vereinigte Bibelgruppen in Schule, Universität, Beruf» (united bible study groups in schools, universities and work).
